

Sleman Hmidat

Full Stack Developer

slemanhmidat6@gmail.com | (+970) 56 691-4915 | [LinkedIn](#) | [GitHub](#) | Tulkarm, Palestine

SUMMARY

Computer Systems Engineering student interested in full-stack development. Learned ASP.NET (C#) and SQL Server, and familiar with React. Passionate about learning new technologies, building practical solutions, and eager to apply skills in real-world applications.

EDUCATION

Tulkarm Industrial Secondary School

Tawjihi (Industrial Stream)

Grade: 91

Tulkarm, Palestine

August 2021 – July 2022

SKILLS

Programming: Object-Oriented Programming (OOP), Data Structures & Algorithms.

Frontend: HTML, CSS, JavaScript, React JS.

Backend: Database Design, ASP.NET (C#), Entity Framework, ASP.NET MVC, RESTful APIs.

Tools: Git, GitHub, Figma, Visual Studio, SQL Server (SSMS), Postman.

PROJECTS

SMSHOP — E-commerce Backend System ([GitHub](#))

Implemented RESTful APIs for managing products, categories, users, and orders. Integrated authentication and authorization, enabling secure login and role-based access. Focused on clean architecture, database normalization, and efficient API performance.

E-commerce Website ([GitHub](#))

Developed a fully responsive e-commerce website with React and integrated backend APIs, featuring authentication, cart management, and category browsing with optimized state handling using Hooks and Context API.

NFT Website ([GitHub](#))

Developed a modern and responsive NFT landing page using HTML, CSS, and JavaScript. Designed an engaging user interface with clean layouts, smooth visuals, and structured content sections to showcase digital assets effectively. Implemented responsive design techniques, including media queries and flexible components, to ensure seamless viewing across different screen sizes and devices.

Courses

Full Stack Development

Remote

Knowledge Academy

June 2024 – September 2025

- Learned to build and deploy complete web applications covering both frontend and backend development.
- Gained practical experience with HTML, CSS, JavaScript, and React for creating responsive and interactive user interfaces.
- Worked with ASP.NET (C#), Entity Framework, and SQL Server to develop and connect server-side logic and databases.
